

Name: _____

Period: _____

Groups, Periods, Valence Electrons
Mr. Murray, IPC

Assigned: Fri., 10/3/03

Due: Tues., 10/7/03

1. What **group** is Carbon in?

4. How many **valence electrons** does this atom have?

5. How many valence electrons does sodium have?

8. Find the mass of LiF.

2. What **period** is Nitrogen in?

6. How many valence electrons does Fluorine have?

9. Find the mass of O₂.

3. What **element** is in Group 2, Period 3?

7. How many valence electrons does Oxygen have?
